JNKVV Chronicles

OCTOBER, 2026

National Award for Outstanding Performance under Prime Minister Dhan-Dhanya Krishi Yojana

On October 12, 2026, at the NASC Complex in New Delhi, the Ministry of Agriculture and Farmers Welfare marked the completion of one year of the Prime Minister Dhan-Dhanya Krishi Yojana with a felicitation ceremony. Hon'ble Minister Shri Shivraj Singh presented awards to the District Collectors of Umaria, Dindori, Sidhi and Tikamgarh along with their teams for outstanding performance under the scheme, assessed through monthly progress on key performance indicators monitored via the official dashboard.

Krishi Vigyan Kendra Umaria secured the third rank nationally with a composite score of 78.1, followed by Dindori at fourth (74.0), Sidhi at fifth (71.9) and Tikamgarh at seventeenth (62.4). District Umaria received a Certificate of Excellence for overall performance, Dindori was honoured for exemplary work in promoting crop diversification and sustainable agricultural practices, while Sidhi and Tikamgarh were recognised for their contributions in augmenting post-harvest storage capacity. The University played a vital role as the technical knowledge partner, while the Krishi Vigyan Kendras served as bridges between research and farmers through technology assessment, refinement, on-farm testing, frontline demonstrations and capacity development, thereby strengthening the impact of the scheme at the grassroots level.

COLLEGES

First-Year Students Win Inter-Class Volleyball Tournament at Balaghat

Balaghat, 15 October 2026: The College of Agriculture, Balaghat, organized an inter-class volleyball tournament featuring teams from the first year, second year, third year and college staff. Under the guidance of Dean Dr. G. S. Deshmukh and Sports Teacher Dr. S. K. Rajak, the tournament concluded with the first-year team defeating the second-year team in the final.

The second-year team secured second place, followed by the third-year team in third place and the college staff team in fourth place. Dr. Deshmukh and Dr. Rajak distributed prizes to the winners, encouraging sportsmanship, teamwork and physical fitness among students.

Balaghat: The College of Agriculture, Balaghat, observed the 63rd Foundation Week of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, through a series of educational, awareness and extracurricular activities. The programme included tuberculosis awareness, cleanliness and drug awareness initiatives, speech, poster and rangoli competition, and a one day health camp. Students and college staff member participated in the activities which promoted health awareness, enviornmental responsibility, creativity and community engagement.

College of Agriculture, Balaghat Promotes Safe Gym Practices

Balaghat: Dean Dr. G. S. Deshmukh and Sports Teacher Dr. S. K. Rajak visited the college gymnasium to interact with students and guide them on the effective use of available fitness facilities. Dr. Deshmukh emphasized maintaining discipline and safety, while Dr. Rajak demonstrated the proper use of gym equipment to help prevent injuries and improve workout effectiveness. The visit encouraged students to balance academic commitments with physical fitness and well-being.

TB Awareness Programme Organised

Balaghat: A tuberculosis (TB) awareness programme was organised at the College of Agriculture, Balaghat, to educate students and college staff about the symptoms, modes of transmission, preventive measures and available treatment for TB.

Dr. Priyansh Mandale, Mr. Purushotam Deshmukh and the team from Government Civil Hospital, Waraseoni, provided guidance to enhance awareness about tuberculosis prevention and control.

Swachhata Awareness Programme Marks Gandhi Jayanti

Balaghat, 2 October 2026: The College of Agriculture, Balaghat, organised a Swachhata awareness programme to commemorate Gandhi Jayanti as part of the 63rd Foundation Week Celebration of JNKVV, Jabalpur. Students and staff members participated actively in promoting cleanliness, hygiene, environmental responsibility and community participation for a clean and healthy campus and society.

Drug Awareness Programme Promotes a Drug-Free Lifestyle

Balaghat: A drug awareness programme was organised at the College of Agriculture, Balaghat, in the presence of Mr. Anoop Uikey, Town Inspector (TI), Waraseoni Police Station. Students and staff members were sensitised to the harmful effects of drug abuse, its consequences for physical and mental health, and the importance of adopting a drug-free lifestyle.

Speech Competition Held During Foundation Week

Balaghat: The College of Agriculture, Balaghat, organised a speech competition as part of the 63rd Foundation Week Celebration of JNKVV, Jabalpur.

Fifteen students participated enthusiastically. Based on her performance, Ms. Rani Goyal, a second-year student, was selected to represent the college in the inter-collegiate speech competition held at JNKVV, Jabalpur, on 7 October 2026.

Mayuri Tilante Wins Third Position in Poster Competition

Balaghat: Students of the College of Agriculture, Balaghat, represented the college in the inter-collegiate speech and poster presentation competitions at JNKVV, Jabalpur. Ms. Rani Goyal, a second-year student, represented the college in speech, while Ms. Mayuri Tilante and Ms. Rahul Suman from the first year participated in the poster competition. Ms. Mayuri Tilante secured third position in the poster competition, bringing recognition to the college.

Rangoli Competition Organised

Balaghat: A rangoli competition was organised at the College of Agriculture, Balaghat, as part of the 63rd Foundation Week Celebration of JNKVV, Jabalpur. The activity provided students with an opportunity to showcase their creativity and artistic skills while participating in the college's Foundation Week celebrations.

One-Day Health Camp Organised

Balaghat: A one-day health camp was organised at the College of Agriculture, Balaghat, as part of the 63rd Foundation Week Celebration of JNKVV, Jabalpur. The activity focused on promoting health awareness and encouraging students and college staff members to give importance to their health and well-being.

First-Year Students Win Inter-Class Volleyball Tournament

Balaghat, 15 October 2026: The College of Agriculture, Balaghat, organised an inter-class volleyball tournament featuring four teams representing first-year students, second-year students, third-year students and college staff. The tournament was conducted under the guidance of Dean Dr. G. S. Deshmukh and Sports Teacher Dr. S. K. Rajak.

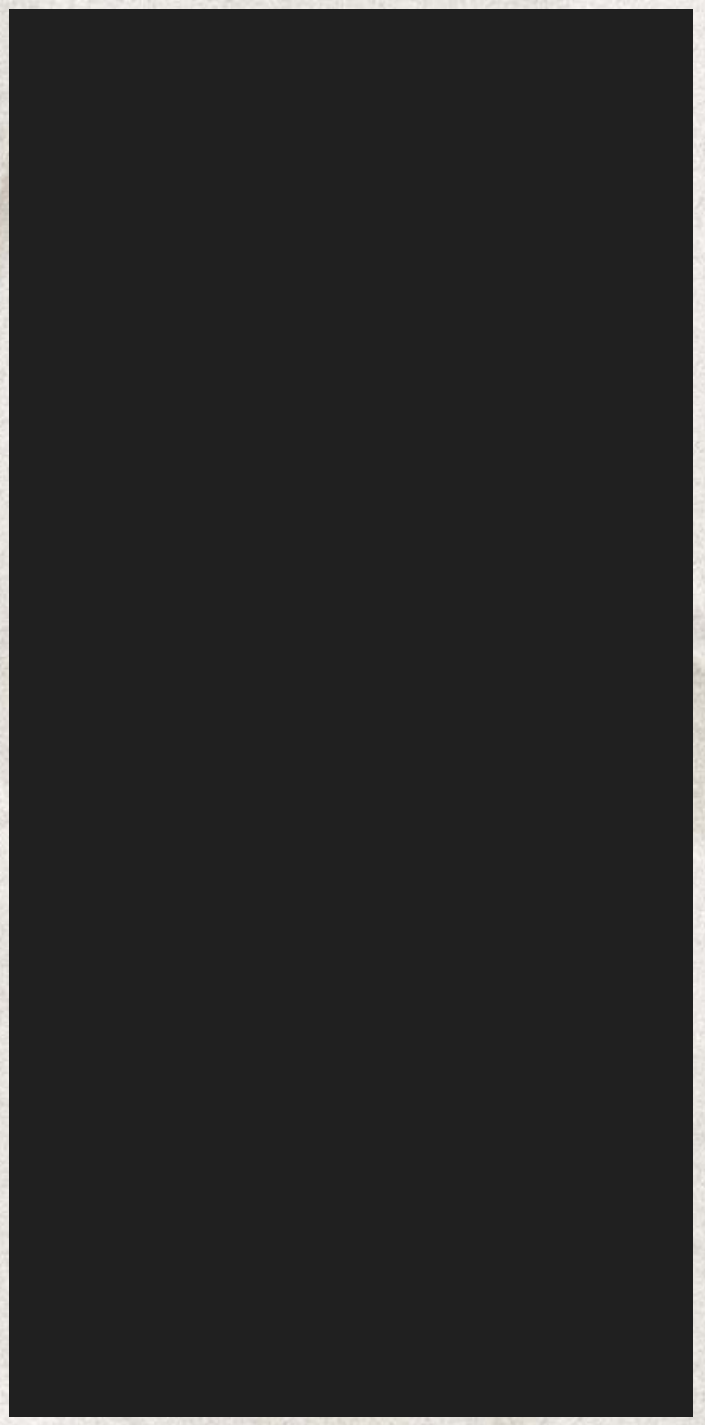

The first-year team defeated the staff team in the opening match, while the second-year team defeated the third-year team. In the final, the first-year team defeated the second-year team to secure the championship. The first-year team finished first, followed by the second-year team in second place, the third-year team in third place and the staff team in fourth place. Dr. Deshmukh and Dr. Rajak distributed prizes to the participants and encouraged sportsmanship, teamwork and physical fitness.

Dean and Sports Teacher Promote Safe Gym Practices

Balaghat: Dean Dr. G. S. Deshmukh and Sports Teacher Dr. S. K. Rajak visited the college gymnasium and interacted with students about fitness and the effective use of gym facilities. Dr. Deshmukh emphasised discipline and safety during exercise, while Dr. Rajak demonstrated the proper operation of gym equipment to help students exercise effectively and reduce the risk of injury. The visit highlighted the importance of balancing academic responsibilities with physical fitness and well-being.

IRRI Scientist Reviews Rice Varieties and Breeder-Seed Production at KVK Badgaon

Badgaon, Balaghat: Dr. Jauhar Ali of the International Rice Research Institute (IRRI) visited Krishi Vigyan Kendra (KVK), Badgaon, Balaghat, to review IRRI rice varieties and breeder-seed production activities. During the visit, he assessed the ongoing work and provided technical guidance to support rice research and seed-production efforts.

JNKVV Team Monitors IRRI–JNKVV Rice Field Trials at Balaghat

Balaghat: A JNKVV team comprising Dr. R. Shiv Ramakrishnan, Scientist and Principal Investigator; Dr. Ashish Kumar; and Dr. Ashwani Kumar Jain, Directorate of Research, JNKVV, visited the IRRI–JNKVV experimental fields at Balaghat to monitor ongoing rice field trials. The visit focused on reviewing the progress of the experiments and assessing field-level developments under the collaborative rice research programme.

Nano-Fertiliser Field Day Conducted at Fogaltola

Fogaltola, Balaghat, 9 October 2026: IFFCO organised a nano-fertiliser field day at Fogaltola village, Bandari, in Balaghat district. Dr. S. R. Dhuware briefed farmers about the field-level use of nano-fertilisers and their application in crop management. The programme provided an opportunity for farmers to receive technical information and discuss fertiliser-use practices.

Training on Rice Plant Protection for BAIF Farmers

Balaghat, 3 October 2026: A training programme on rice plant protection was organised for farmers associated with BAIF at KVK Balaghat. The programme included technical guidance on rice crop protection and visits to the demonstration unit and breeder-seed farm, helping farmers gain practical exposure to crop-management practices.

कटंगी स्कूल के विद्यार्थियों ने किया राजा भोज कृषि महाविद्यालय का शैक्षणिक भ्रमण

मुरझड़, बालाघाट: कटंगी स्कूल के विद्यार्थियों ने अधिष्ठाता डॉ. घनश्याम देशमुख के मार्गदर्शन में राजा भोज कृषि महाविद्यालय, जवाहरलाल नेहरू कृषि विश्वविद्यालय, मुरझड़-वारासिवनी का शैक्षणिक भ्रमण किया। विद्यार्थियों ने मशरूम उत्पादन इकाई, कृषि संग्रहालय एवं जैविक कृषि इकाई का अवलोकन किया। डॉ. रमेश अमूले, डॉ. विक्रम सिंह गौर एवं डॉ. अतुल श्रीवास्तव ने क्रमशः मशरूम उत्पादन, कृषि विविधता एवं जैविक खेती की जानकारी दी। डॉ. प्रतिभा बिसेन ने कृषि महाविद्यालय में प्रवेश प्रक्रिया एवं करियर के अवसरों पर मार्गदर्शन दिया। इस भ्रमण से विद्यार्थियों को आधुनिक कृषि तकनीकों एवं कृषि शिक्षा का व्यावहारिक ज्ञान प्राप्त हुआ।

College of Agriculture, Jabalpur Observes JNKVV's 63rd Foundation Week

Jabalpur: The College of Agriculture, Jabalpur, celebrated JNKVV's 63rd Foundation Week from 1–7 October 2026 through a series of academic and community outreach activities. On 1 October, the Department of Food Science and Technology distributed nutritional food kits to tuberculosis (TB) patients. A cleanliness drive was organized on 2 October to mark Gandhi Jayanti, followed by an NSS–NCC drug de-addiction awareness rally featuring street plays and slogans on 3 October. A blood donation camp was held on 5 October, followed by a health check-up camp on 6 October for students, faculty, staff and field workers. The celebrations concluded on 7 October with inter-collegiate speech and poster-making competitions, recognizing students' creativity and communication skills. The week promoted public health, cleanliness, social responsibility and student participation, reaffirming the college's commitment to community welfare alongside agricultural education and research.

College of Agriculture, Khurai Celebrates 63rd Foundation Day of JNKVV

Khurai, 1 October 2026: Atal Bihari Vajpayee College of Agriculture, Khurai, Sagar, celebrated the 63rd Foundation Day of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, with enthusiasm. Dean Dr. S. R. S. Raghuvanshi highlighted the university's contributions to agricultural education, research, extension and farmers' welfare. The celebration featured speech and poster-making competitions, with 16 students participating in the speech competition and 11 in the poster competition. A total of 145 students attended the programme, which encouraged creativity, awareness of the university's achievements and commitment to sustainable agricultural development.

Deeksharambh Programme Connects Students with Career Experts

As part of the Deeksharambh Programme, students interacted with distinguished guests and professionals on career planning and academic development. On 1 October, Shri Satish Kumar Verma, Sub-Divisional Officer (Revenue); Dr. M. P. Dubey, former Dean; and Shri Praveen Kumar Raghuvanshi, an alumnus working at the National Seeds Corporation, Khurai, shared their experiences and guidance on competitive examinations, administrative services and career opportunities in the seed sector.

On 5 October, Shri Praveen Maurya, In-charge Mandi Secretary, Krishi Upaj Mandi, Khurai, briefed students on agricultural marketing and opportunities in Mandi Board services. The fifteen-day special session concluded on 6 October with a talk by Dr. Avinash Saxena on "**Adolescent Health and Hygiene,**" covering nutrition, personal hygiene, healthy routines and student well-being.

College Organizes Swachh Bharat Cleanliness Drive

Khurai, 2 October 2026: The College of Agriculture, Khurai, organized a cleanliness and sanitation drive under the Swachh Bharat Abhiyan to mark the birth anniversary of Mahatma Gandhi. Under the guidance of Dean Dr. S. R. Raghuvanshi, faculty memb. and staff cleaned campus pathways and surrounding areas, collected waste and dry leaves, and promoted responsible waste disposal. The programme reinforced the message of a clean campus, healthy life and clean society.

World Cotton Day Highlights Sustainable Cotton Production

Khurai, to highlight cotton's agricultural, economic and social importance. Students learned about improved seeds, balanced fertilization, integrated pest and disease management, water conservation and modern agricultural technologies. Discussions also covered challenges such as climate change, rising production costs and market fluctuations. The programme emphasized scientific research, value addition and sustainable cotton cultivation to improve farmers' livelihoods.

Swachhta Abhiyan Promotes Campus Cleanliness at Panna

Panna, 2 October 2026: The College of Agriculture, Panna, organized a cleanliness drive on Gandhi Jayanti as part of JNKVV's 63rd Foundation Week. Faculty members, non-teaching staff and students cleaned classrooms, the campus and surrounding areas, emphasizing waste segregation, reduced littering and the importance of maintaining a clean and healthy environment.

College of Agriculture, Panna Organizes Blood Donation Camp

Panna, 1 October 2026: The College of Agriculture, Panna, organized a blood donation camp in collaboration with the Blood Bank Team, Panna, during the 63rd Foundation Day celebrations of JNKVV, Jabalpur. Faculty members, staff and students participated enthusiastically, with 10 students voluntarily donating blood. Participants were sensitized to the importance of blood donation in saving lives, and certificates and medals were presented to the donors.

Tree Plantation Promotes Environmental Conservation

Panna, 4 October 2026: The College of Agriculture, Panna, organized a tree plantation programme on its campus during JNKVV's 63rd Foundation Week. The initiative promoted environmental conservation, campus greenery and sustainable development, encouraging a collective commitment to a greener future.

Drug De-Addiction Rally Spreads Awareness at Panna

Panna, 5 October 2026: The NSS unit of the College of Agriculture, Panna, organized a drug de-addiction awareness rally during JNKVV's 63rd Foundation Week. Students and faculty members participated in the rally to highlight the harmful effects of drug abuse and substance addiction, promoting a healthy and drug-free lifestyle among students and the public.

Poster-Making Competition Encourages Student Creativity

Panna, 4 October 2026: A poster-making competition was organized at the College of Agriculture, Panna, as part of JNKVV's 63rd Foundation Week. Students showcased their creativity and knowledge through informative and attractive posters, providing a platform for artistic expression and academic engagement.

Debate Competition Enhances Students' Communication Skills

Debate Competition Enhances Students' Communication Skills

Panna, 4 October 2026: The College of Agriculture, Panna, organized a debate competition during JNKVV's 63rd Foundation Week. The event encouraged students to develop critical thinking, confidence, public speaking and communication skills through active participation.

Panna, 3 October 2026: Mr. Jitendra Gurjar, a fourth-year B.Sc. (Hons.) Agriculture student at the College of Agriculture, Panna, secured second prize in a debate competition organized under the “Nasha Mukt Yuva for Viksit Bharat” 100-week campaign. The event was conducted by Nehru Yuva Kendra Sangathan (NYKS) at Town Hall, Panna, as part of a district-level competition and public awareness program.

Mr. Jitendra Gurjar

Mushroom Production and Demonstration Unit Established at College of Agriculture, Powarkheda

Powarkheda, Narmadapuram, 12 October 2026: The College of Agriculture, Powarkheda, established a Mushroom Production and Demonstration Unit under the Skill Enhancement Programme to provide practical training in mushroom cultivation to undergraduate agriculture students. The training covers substrate preparation, spawning, crop management, harvesting and post-harvest handling. The unit aims to develop practical skills, encourage entrepreneurship and promote mushroom cultivation as an income-generating enterprise. It will also serve as a demonstration and training centre for farmers and other stakeholders.recognise their efforts and encourage other students to participate in NCC activities and develop discipline, leadership and a sense of responsibility.

Prakaram – The Strength Games Organised at College of Agriculture, Panna

Panna, 13–14 October 2026: The Student Capability Development Cell (SCDC) of the College of Agriculture, Panna, JNKVV, organised a two-day sporting event, “Prakaram – The Strength Games,” to promote physical fitness, teamwork, discipline, leadership and sportsmanship among students. The event encouraged active participation and highlighted the importance of holistic student development alongside academic pursuits.

Mushroom Production and Demonstration Unit Established at College of Agriculture, Powarkheda

Powarkheda, Narmadapuram, 12 October 2026: The College of Agriculture, Powarkheda, established a Mushroom Production and Demonstration Unit under the Skill Enhancement Programme to provide practical training in mushroom cultivation to undergraduate agriculture students. The training covers substrate preparation, spawning, crop management, harvesting and post-harvest handling. The unit aims to develop practical skills, encourage entrepreneurship and promote mushroom cultivation as an income-generating enterprise. It will also serve as a demonstration and training centre for farmers and other stakeholders.recognise their efforts and encourage other students to participate in NCC activities and develop discipline, leadership and a sense of responsibility.

Student Competitions Highlight AI in Agriculture and Sustainable Farming

A college-level poster and speech competition was organized in the seminar hall, with 20 students participating. Miss Ananya was selected to represent the college in the inter-collegiate speech competition, while Miss Ekta Sarathe and Miss Radhika Raghuwanshi were selected for the poster presentation at Krishi Manthan Year at JNKVV, Jabalpur. The themes included artificial intelligence in agriculture, sustainable farming, and the role of Madhya Pradesh Government schemes and JNKVV in agricultural development.

Thirty-Six NCC Girl Cadets of College of Agriculture, Powarkheda Awarded ‘B’ and ‘C’ Certificates

Powarkheda, Narmadapuram, 5 October 2026: A total of 36 girl cadets of the College of Agriculture, Powarkheda, were awarded NCC certificates by the 5 MP Girls Battalion, Narmadapuram. Eighteen cadets received the 'B' Certificate, while another eighteen cadets were awarded the 'C' Certificate.

The achievement reflects the cadets' participation in NCC training and their progress in the programme. The certificates recognise their efforts and encourage other students to participate in NCC activities and develop discipline, leadership and a sense of responsibility.

Webinar Promotes Financial Literacy and Career Awareness

On 9 October 2026, Excellence Global Skills, New Delhi, organized a virtual webinar on career guidance and financial literacy for students. The session covered financial awareness, career opportunities in the financial sector, SEBI guidelines and measures to prevent financial fraud. It aimed to encourage safe and responsible financial practices among students.

Three Students Qualify for ICAR Postgraduate Programmes

Three students of the College of Agriculture, Powarkheda, qualified for ICAR postgraduate programmes for the 2026–27 academic session. Mr. Pratyush Mohanti qualified for ICAR-JRF in Plant Pathology and was allotted CCS Haryana Agricultural University, Hisar, Haryana. Mr. Dev Patel qualified for ICAR-NTS in Entomology and was allotted Punjab Agricultural University, Ludhiana, Punjab. Mr. Keshav Raja Yadav qualified for ICAR-NTS in Agronomy and was allotted Anand Agricultural University, Anand, Gujarat.

In addition, **14 students qualified for postgraduate (PG/M.Sc.) agriculture admissions in Madhya Pradesh**, reflecting the students' academic progress and preparation for higher studies.

Gandhi Jayanti and Lal Bahadur Shastri Jayanti Marked by Cleanliness Drive

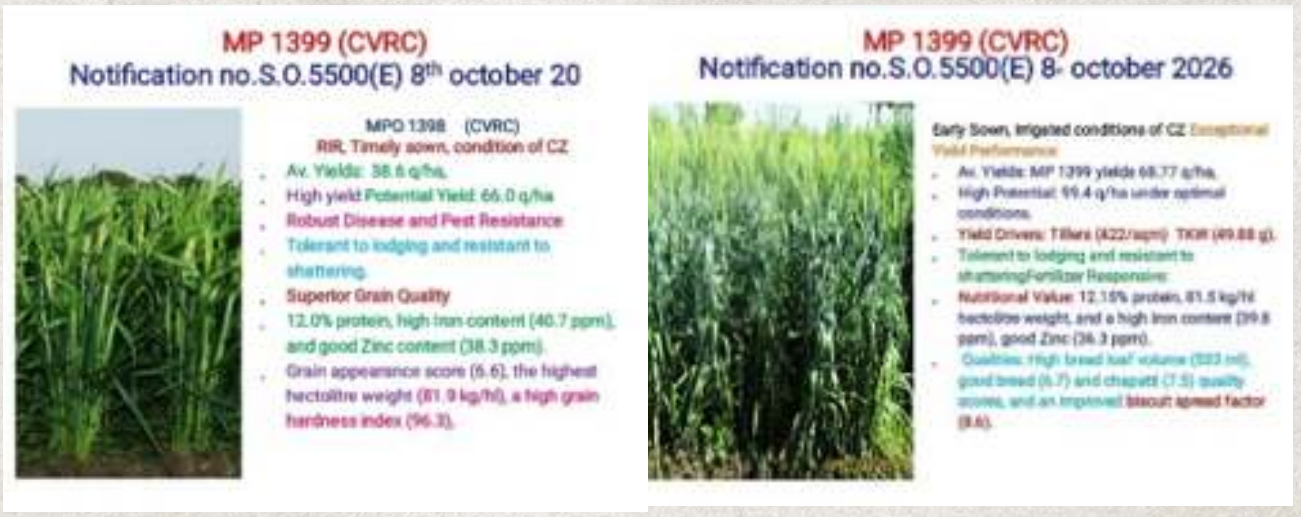

The birth anniversaries of Mahatma Gandhi and former Prime Minister Lal Bahadur Shastri were observed on 2 October 2026. A cleanliness campaign was conducted across the college campus, including the student mess and Tawa and Narmada girls' hostels. Students and sanitation staff cleaned kitchens, gardens, washrooms and other common areas, demonstrating collective responsibility towards cleanliness and hygiene.

College of Agriculture, Tikamgarh Organizes Nasha Mukt Awareness Rally

Tikamgarh, 1 October 2026: As part of the University Foundation Day celebrations, the College of Agriculture, Tikamgarh, organized a Nasha Mukt Bharat awareness rally. Students and NSS volunteers actively participated, raising slogans and educating the local community, particularly youth, about the harmful effects of drug and substance abuse. The rally encouraged healthy lifestyles and reinforced the message of a drug-free society through community participation and social service.

Two Wheat Varieties, JW 1398 and JW 1399, Notified

Two wheat varieties, **JW 1398 and JW 1399**, developed under the All India Coordinated Research Project (AICRP) on Wheat at Zonal Agricultural Research Station (ZARS), Powarkheda, were notified by the Central Variety Release Committee (CVRC). The notification was issued vide **S.O. 5500(E), dated 8 October 2026**. This development marks an important contribution to wheat research and varietal development at Powarkheda.

Tikamgarh Students Excel in JNKVV Inter-Collegiate Competitions

Jabalpur, 7 October 2026: Students of the College of Agriculture, Tikamgarh, participated in the inter-collegiate speech and poster-making competitions held at JNKVV, Jabalpur. Mr. Akshay Khare secured second prize in the speech competition, while Ms. Shruti Tomar and Ms. Krati Sahu received appreciation for their posters. The achievements highlighted the students' communication skills, creativity and active participation in university-level activities.

College of Agriculture, Tikamgarh Observes Swachh Bharat Abhiyan

Tikamgarh, 2 October 2026: The College of Agriculture, Tikamgarh, organized cleanliness activities at Chandra Shekhar Azad Boys' Hostel and Maharani Laxmi Bai Girls' Hostel under the Swachh Bharat Abhiyan. Students participated enthusiastically to promote hygiene, sanitation and environmental awareness within the hostels and their surroundings. The programme commemorated Mahatma Gandhi's vision of cleanliness and encouraged students to make cleanliness a regular habit.

Anti-Ragging Awareness Programme Organized at Tikamgarh

Tikamgarh, 14 October 2026: The College of Agriculture, Tikamgarh, organized an anti-ragging awareness programme under the guidance of Dean Dr. D. S. Tomar. He emphasized the importance of maintaining a ragging-free campus and encouraged students facing any difficulties to approach the anti-ragging committee or the head of the institution. Students shared positive experiences about the cooperative and supportive behaviour of their seniors. The programme reinforced the college's commitment to student safety, ethical values and a respectful learning environment.

DEPARTMENTS

Agricultural Economics Department Records Admissions and Industry Interaction

The Department of Agricultural Economics and Farm Management, JNKVV, Jabalpur, recorded admissions across its academic programmes during the month, including six students in M.Sc. (Agriculture), one candidate in Ph.D. and 13 students in MBA (Agri-Business Management).

On 9 October 2026, an interactive session was organized for newly admitted MBA (Agri-Business Management) students with Mr. Dilip Patidar, an alumnus of the programme. He discussed future prospects in agri-business management, emerging sectoral opportunities, entrepreneurship, start-up development and career pathways for graduates.

Solar-Powered Irrigation Device Design Registered

In a significant achievement in agricultural innovation, the design of a Solar-Powered Irrigation Device was registered under the Designs Act, 2000. The registration was jointly granted to eight applicants, including Dr. Anil Mishra, Dr. Rudra Sen Singh Rakiwar, Dr. Stuti Sharma, Dr. Smita Tiwari, Dr. R. N. Rangare and Dr. Mahendra Daheriya. The achievement highlights efforts to develop innovative technologies for agricultural applications.

Business Planning and Development Unit Appoints Senior Research Fellow

The Business Planning and Development (BPD) Unit, JNKVV, Jabalpur, welcomed a Senior Research Fellow (SRF) on 14 October 2026 following a selection interview. The appointment will support the unit's ongoing research and development activities.

AERC Selected for Natural Farming Feedback Study

The Agro-Economic Research Centre (AERC), JNKVV, Jabalpur, has been selected by the Agro-Economic Research Centre, Gujarat, to conduct a study titled "Concurrent Feedback on Natural Farming" in Madhya Pradesh and Chhattisgarh. The assignment was discussed at a meeting held on 9 October 2026 and is being undertaken under a Government of India initiative, with the Gujarat centre coordinating the study. The research will contribute to the assessment and documentation of feedback on natural farming practices in both states.

Field Visits Strengthen Cost of Cultivation Data Verification

Under the Comprehensive Scheme for Studying Cost of Cultivation of Principal Crops (CCS), field supervisors conducted 20 field visits and farmers' meetings between 15 September and 14 October 2026.

The visits covered 20 villages across 10 tehsils of Madhya Pradesh. The exercise focused on verifying data collected by field investigators and ensuring the accuracy and reliability of information gathered under the scheme.

JNKVV-Incubated Women-Led Startup Wins BRICS Women's Startup Contest 2026

Jabalpur: HAN Agrocare LLP, founded by Dr. Hiresha Verma and incubated at Jawahar R-ABI (J-RABI), Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, won the BRICS Women's Startup Contest 2026 in the Agriculture & Food Security category. Held on 12–13 September 2026, the contest recognized the startup's work in medicinal mushroom cultivation and sustainable rural livelihoods. HAN Agrocare LLP was the only Indian enterprise to win in this category. The initiative promotes skill development, capacity building and agri-based entrepreneurship among rural women. This international recognition highlights the potential of women-led agricultural startups to advance innovation, strengthen rural livelihoods and support sustainable development.

J-RABI Incubated Startup Receives Design Patent for Onion Storage System

Jabalpur: Farm IOT Agtech Pvt. Ltd., a startup incubated at J-RABI, JNKVV, Jabalpur, has been granted Design Patent No. 473922-001 for its "Onion Storage System" by the Patent Office, Government of India, on 10 July 2026. Led by Mr. Arvind Patidar and Mr. Prakhar Patidar, the startup developed the innovation with support under the RKVY-RAFTAAR scheme. The design aims to improve onion storage efficiency and help reduce post-harvest losses, contributing to better storage management for farmers.

Dr. Anil Mishra Takes Charge as CEO and PI of J-RABI

Jabalpur: On 12 October 2026, Dr. Anil Mishra, Assistant Professor, took charge as Chief Executive Officer (CEO) and Principal Investigator (PI) of Jawahar R-ABI (J-RABI), JNKVV, Jabalpur, succeeding Dr. Deepak Rathi. Dr. Rathi continues to serve as Director, Institute of Agribuisness Management (IABM), and Head, Department of Agricultural Economics and Farm Management, College of Agriculture, JNKVV. The leadership transition marks a new phase in the unit's efforts to support agricultural innovation, startup incubation and agri-entrepreneurship.

JNKVV Integrated Farming Model Appreciated at State-Level Conference

Jabalpur: The Integrated Farming System (IFS) model showcased by the IFS team of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, received appreciation from Hon'ble Union Home Minister Shri Amit Shah, Madhya Pradesh Chief Minister Dr. Mohan Yadav and other dignitaries during the State-Level Cow Rearing Conference held in Bhopal on 3 October 2026. The model highlighted the role of integrated farming in promoting sustainable agriculture, strengthening livestock-based livelihoods and improving farm income. Dr. A. K. Saxena, Dr. Vikas Gupta, Dr. Vijay Agrawal and Shri Rakesh Moviya represented the university at the event, bringing recognition to JNKVV's efforts in agricultural innovation and sustainable farming systems.

JNKVV Extension Education Researchers Publish Three Research Papers

Jabalpur: Researchers associated with the Department of Extension Education, College of Agriculture, Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, have reported three research publications during September - October 2026, covering climate-change awareness, watershed management and rural women's empowerment.

The published studies include:

- **Climate Change**: "Assessment of Farmers' Awareness about Climate Change in Bundelkhand Region of Madhya Pradesh," published in the Journal of Scientific Research and Reports.
- **Watershed Management**: "Impediments to Beneficiary Adoption of Watershed Management Interventions: An Analytical Assessment with Programmatic Recommendations," published in the Asian Journal of Agricultural Extension, Economics and Sociology.
- **Women's Empowerment**: "Income-Generating Activities and Multidimensional Empowerment of Rural Women in Watrap Block, Tamil Nadu," published in the Indian Journal of Extension Education.

These publications reflect research contributions in agricultural extension, sustainable resource management and rural livelihood development.

598 Students Join RAWE Programme across Madhya Pradesh

Departure of Students of CoA Jabalpur for KVK Mandla

Jabalpur: Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, has placed 598 students, including 374 male and 224 female students, in selected villages across Madhya Pradesh under the Rural Agricultural Work Experience (RAWE) programme for the academic session 2026–27.

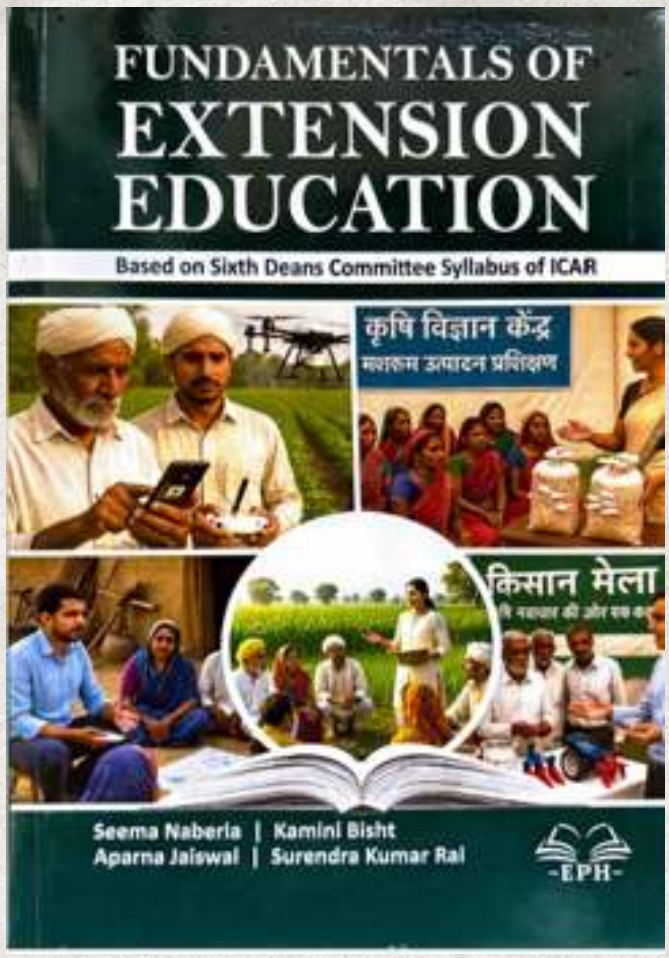

The students represent Agriculture and Horticulture colleges at Jabalpur, Waraseoni, Rewa, Ganjbasoda, Tikamgarh, Powarkheda, Khurai, Panna, Rehli and Chhindwara. Under the guidance of KVK scientists and other experts, they will gain practical experience in crop production, agricultural technologies, rural farming systems and extension activities. The programme aims to bridge the gap between classroom learning and field experience while developing students' technical and communication skills.

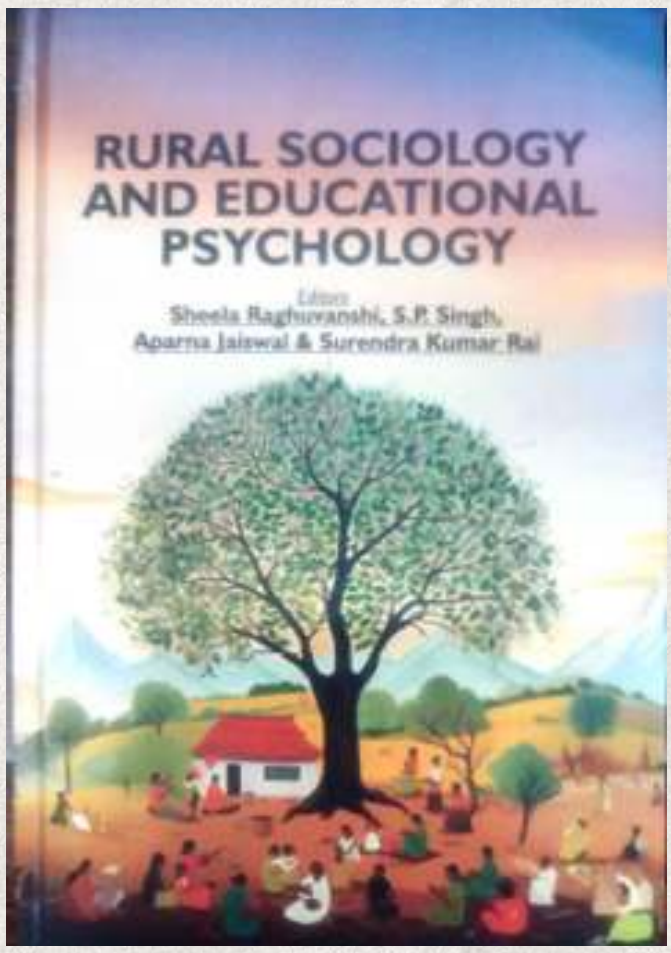

Students of CoA Ganjbasoda placed under KVK Raisen

Two Academic Textbooks Strengthen Agricultural Extension Education

Jabalpur: Two academic textbooks, Fundamentals of Extension Education and Rural Sociology & Educational Psychology, offer valuable learning resources for students and professionals in agricultural education and rural development. Both books are aligned with the VI Deans' Committee curriculum recommended by the Indian Council of Agricultural Research (ICAR).

Fundamentals of Extension Education, authored by Seema Naberia, Kamini Bisht, Aparna Jaiswal and Surendra Kumar Rai, covers the principles of extension education, programme planning, rural development, information and communication technology (ICT), government initiatives, communication models, leadership and technology transfer. Flow diagrams, glossaries, objective questions and suggested readings support student learning and examination preparation.

Rural Sociology & Educational Psychology, authored by Sheela Raghuvanshi, S. P. Singh, Aparna Jaiswal and Surendra Kumar Rai, explores rural social structures, culture, group behaviour, social change, leadership, educational psychology, learning theories, intelligence and personality. Its structured chapters, illustrative diagrams, glossaries and practice questions support conceptual understanding and academic preparation.

Both textbooks are intended to support agricultural university students, researchers, educators and rural development practitioners by connecting theoretical knowledge with practical applications in extension education and rural communities.

JNKVV–IRRI Project Advances Climate-Resilient Rice Research

Jabalpur: Dr. Jauhar Ali, Principal Scientist and Rice Hybrid Lead at the International Rice Research Institute (IRRI), Los Baños, Philippines, and Dr. Neelam Agarwal of the Madhya Pradesh Seed Federation visited the experimental fields of the IRRI–JNKVV Collaborative Project on 30 September 2026. They assessed promising direct-seeded rice (DSR)-suitable varieties developed under the project "Development of Climate-Resilient, Biofortified and High-Yielding Varieties of Rice in Madhya Pradesh." The visit was attended by Dr. Rajani Bisen, Head, Department of Genetics and Plant Breeding; Dr. Sanjay Singh, Dr. R. Shiv Ramakrishnan and Dr. Ashish Kumar, Principal Investigators; Dr. Radheshyam Sharma, Dr. Amit Jha and other project staff.

In a related initiative, JNKVV, IRRI and the Madhya Pradesh Seed Federation submitted a project proposal titled "Transforming Madhya Pradesh into a Two-Line Hybrid Rice Seed Production Hub for Rice," with a proposed budget of ₹98 crore. Dr. Neelam Agarwal, Dr. Rajani Bisen and Dr. Ashwani Kumar Jain, DRS, JNKVV, participated in the project formulation meeting. Additionally, the project "National Mission on High Yielding Seeds on Soybean" was approved and sanctioned by ICAR–IARI, New Delhi, for five years, from 2026–27 to 2030–31.

A Central Zone-II monitoring team comprising Dr. J. B. Patel (Convenor), Dr. Kalyan Rao, Dr. Umesh Hiremath of UAS Raichur and Dr. R. C. Meena of RARI, Durgapura, also monitored field and laboratory trials under the Seed Technology Research Component of the All India Coordinated Research Project on Seed (Crops).

Special Lecture on Climate-Resilient Rice Marks JNKVV Foundation Day

Jabalpur, 1 October 2026: On the occasion of the University Foundation Day, the Department of Genetics and Plant Breeding, Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, organized a special lecture by Dr. Jauhar Ali, Principal Scientist at the International Rice Research Institute (IRRI), Los Baños, Philippines. The lecture, titled "Development of Climate-Resilient Inbreds and Hybrids for Sustainable Food Security," highlighted the importance of developing climate-resilient rice varieties and hybrids to strengthen sustainable agriculture and food security.

JNKVV Scientist Participates in Tropentag 2026 in Germany

Jabalpur: Dr. Ashish Kumar of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, participated in the Tropentag 2026 international conference held from 16 to 18 September 2026 at the University of Göttingen, Germany. His participation provided an opportunity for academic interaction and engagement with the international agricultural research community.

Biofertilizer Distribution under IRRI–JNKVV Rice Project

Under the IRRI–JNKVV Collaborative Project on Rice, the biofertilizer Azotobacter was supplied to farmers participating in randomized controlled trials and frontline demonstrations (FLDs) in Seoni district. The initiative aims to evaluate improved rice production practices and promote efficient nutrient management under field conditions.

JNKVV Team Monitors Rice Field Trials at Balaghat

Balaghat: Dr. R. Shiv Ramakrishnan, Scientist and Principal Investigator of the IRRI–JNKVV Collaborative Project on Rice, along with Dr. Ashish Kumar and Dr. Ashwani Kumar Jain, DRS, JNKVV, Jabalpur, visited the College of Agriculture,

Balaghat, to monitor field trials under the collaborative project. The visit focused on assessing the ongoing rice experiments and reviewing field-level progress to support the development of improved rice production technologies.

Biofertilizer Distributed to Farmers in Satna District

Satna: Under the IRRI–JNKVV Collaborative Project on Rice, the biofertilizer Azotobacter was supplied to farmers participating in randomized controlled trials and frontline demonstrations (FLDs) in Mataha village, Satna district. The initiative aims to evaluate improved rice production practices and promote efficient nutrient management under field conditions.

Patent Granted for Solar-Powered Irrigation Device

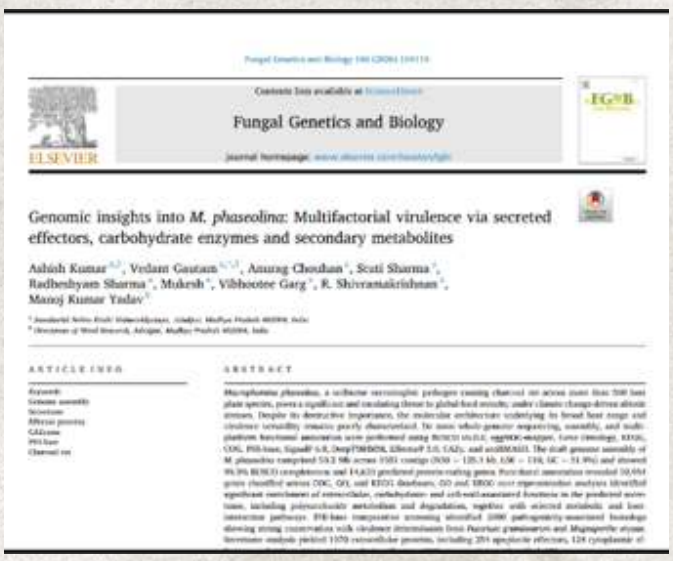

Jabalpur: Dr. Stuti Sharma, Scientist at Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), has been granted a patent certificate by the Patent Office, Government of India, for a Solar-Powered Irrigation Device. This achievement highlights the university's contribution to agricultural innovation and the development of technology for sustainable irrigation.

Biofertilizer Distribution under Rice Demonstrations in Anuppur

Anuppur: Under the IRRI–JNKVV Collaborative Project on Rice, the biofertilizer Azotobacter was supplied to farmers participating in randomized controlled trials and frontline demonstrations (FLDs) in Anuppur district. The initiative aims to evaluate improved rice production practices and promote efficient nutrient management under field conditions.

JNKVV Scientists Publish Research in Fungal Genetics and Biology

Fungal Genetics and Biology

Genomic insights into *M. phaseolina*: Multifactorial virulence via secreted effectors, carbohydrate enzymes and secondary metabolites

Ashish Kumar, Vedant Gautam, Anurag Chouhan, Stuti Sharma, Radheshyam Sharma, Mukesh, Vibhootee Garg, R. Shivramakrishnan, Manoj Kumar Yadav

Jabalpur: Dr. Ashish Kumar, Dr. Stuti Sharma and Dr. R. Shiv Ramakrishnan of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, published a research paper titled "Genomic Insights into M. phaseolina: Multifactorial Virulence via Secreted Effectors, Carbohydrate Enzymes and Secondary Metabolites" in the international journal Fungal Genetics and Biology, with a reported impact factor of 3.0. The study explores genomic factors associated with the virulence of Macrophomina phaseolina, contributing to scientific understanding of this important plant pathogen.

ICAR–IIVR Monitoring Team Reviews Vegetable Crop Research at JNKVV

Jabalpur, 12 October 2026: A monitoring team led by Dr. Jagesh Kumar Tiwari, Principal Scientist, ICAR–Indian Institute of Vegetable Research (ICAR-IIVR), Varanasi, visited the Department of Horticulture, Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, to review ongoing field trials under the All India Coordinated Research Project on Vegetable Crops (AICRP-VC). During the visit, Dr. Tiwari reviewed the field experiments being conducted for the 2026–27 season as per the prescribed technical programme. He expressed satisfaction with the timely sowing, proper experimental layout and systematic maintenance of the trials. He also offered suggestions for accurate data recording and timely submission of reports to ensure effective implementation of the project.

Dr. Swati Barche, Professor and Head, Department of Horticulture, appreciated the research team's efforts. Dr. Akhilesh Tiwari, Principal Scientist and Principal Investigator of AICRP-VC, along with Dr. Rajnee Sharma, Scientist; Dr. Meenakshi Ramgiry, Senior Technical Assistant; and Mrs. Supriya Gupta, Field Extension Officer, was present during the visit and briefed the monitoring team on the research activities undertaken under the project.

EXTENSION ACTIVITIES

IRRI Scientist Reviews Breeder Seed Production Programme at KVK Badgaon

Balaghat: Dr. Johar Ali, Principal Scientist at the International Rice Research Institute (IRRI), Philippines, visited the farm of Krishi Vigyan Kendra (KVK), Badgaon, Balaghat, to review IRRI-developed rice varieties and varieties cultivated under the breeder seed production programme.

During the visit, Dr. Ali assessed crop performance and ongoing seed production activities. He also provided valuable technical guidance to scientists on rice cultivation, varietal evaluation and breeder seed production, supporting efforts to improve rice research and seed quality.

KVK Scientist Promotes Nano Fertilizers at Farmers' Field Day

Balaghat, 9 October 2026: Dr. S. R. Dhuware, Scientist at Krishi Vigyan Kendra (KVK), Balaghat, participated in a field day on nano fertilizers organized by IFFCO at Fogaltola village, Bandari. He briefed farmers on the application of Urea, Nano DAP and water-soluble fertilizers, highlighting their role in efficient nutrient management improved crop productivity and sustainable agricultural practices.

Farmers Attend Training on Rice Plant Protection at KVK Balaghat

Balaghat, 3 October 2026: Krishi Vigyan Kendra (KVK), Balaghat, organized a one-day training programme on plant protection in rice for farmers associated with the BAIF NGO. The programme focused on plant protection measures, pest and disease management, and scientific practices to improve rice crop health and productivity.

As part of the programme, farmers visited various demonstration units at KVK and the farm where breeder seed production activities were underway. The field visit provided practical exposure to agricultural technologies, crop management practices and seed production activities.

Swachhata Hi Seva Campaign Concludes at KVK Betul on Gandhi Jayanti

Betul, 2 October 2026: Krishi Vigyan Kendra (KVK), Betul, conducted the Swachhata Hi Seva campaign from 17 September to 2 October 2026 to promote cleanliness, sanitation and environmental awareness. The campaign included cleaning the KVK premises, office areas, pathways and common spaces, along with awareness activities on proper waste disposal, reducing plastic use and personal hygiene.

Dr. Sanjeev Verma, Dr. Megha Tiwari, Dr. M. P. Ingle, Dr. Sanjay Jain and RAWE students participated in the campaign. Concluding on Gandhi Jayanti, the programme reinforced the message that cleanliness is a shared responsibility and encouraged continued efforts towards a clean and healthy environment.

KVK Betul Guides Farmers on Rabi Crops During Seva Se Setu Abhiyan

Betul, 4 October 2026: Krishi Vigyan Kendra (KVK), Betul, participated in the Seva Se Setu Abhiyan at Girls School, Betul Bazar. Dr. S. K. Tiwari, Senior Scientist and Head, provided guidance on short-duration Rabi crops.

Shri R. D. Barpete discussed insect pests and diseases, while Dr. Megha Tiwari explained fertilizer application based on Soil Health Card recommendations. Dr. Sanjay Jain suggested suitable short-duration Rabi varieties. An agricultural exhibition stall was also set up for farmers.

[redacted]

KVK Scientists Promote Short-Duration Rabi Crops During CM Jan Vishwas Abhiyaan

Betul, 7–8 October 2026: Dr. S. K. Tiwari, Senior Scientist and Head, and Dr. Megha Tiwari of Krishi Vigyan Kendra (KVK), Betul, participated in the CM Jan Vishwas Abhiyaan at Janpad Panchayat, Prabhat Pattan, Betul district. They advised farmers on cultivating short-duration Rabi crops. The programme also aimed to improve public awareness of government welfare schemes and facilitate access to public services.

JNKVV Foundation Day Celebrated at KVK

Chhatarpur, 1 October 2026: The Foundation Day of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, was celebrated at the Krishi Vigyan Kendra (KVK). On the occasion, the Senior Scientist and Head highlighted the university's contributions to agricultural education, research, improved crop varieties and farmers' welfare.

The programme also emphasized the role of KVKs in disseminating innovative agricultural technologies, training farmers, promoting soil and water conservation, and encouraging sustainable farming to improve agricultural productivity and farmers' income.

KVK Chhatarpur Organizes Cleanliness Drive on Gandhi Jayanti

Chhatarpur, 2 October 2026: Krishi Vigyan Kendra (KVK), Chhatarpur, organized a cleanliness drive under the Swachhata Abhiyan to mark Mahatma Gandhi Jayanti. The programme aimed to promote cleanliness, personal hygiene and environmental awareness. Participants were encouraged to maintain a clean KVK campus, ensure proper waste disposal and adopt responsible hygiene practices in their daily lives. The initiative reinforced Mahatma Gandhi's ideals of cleanliness and the vision of Swachh Bharat.

AWE Students Visit KVK Chhindwara for Practical Agricultural Training

Chhindwara, 9 October 2026: Students participating in the Agricultural Work Experience (AWE) programme visited Krishi Vigyan Kendra (KVK), Chhindwara, to gain practical exposure to agricultural technologies and scientific farming practices. KVK experts Dr. Sarita Singh and Dr. Sunderlal Alawa guided the students on soil health, nutrient management, plant protection and pest management. Demonstrations on horticultural crops and other agricultural activities familiarized students with modern cultivation practices and helped bridge the gap between theoretical knowledge and field experience.

KVK Chhindwara-1 Conducts Special Swachhata Campaign

Chhindwara: Krishi Vigyan Kendra (KVK), Chhindwara-1, is conducting a special Swachhata campaign from 2 to 31 October 2026 to promote cleanliness, hygiene and environmental awareness. Staff members and officers are participating in cleanliness drives across office premises, laboratories, facilities and agricultural demonstration units. The campaign emphasizes proper waste disposal, personal hygiene and collective responsibility for maintaining a clean and healthy environment.

KVK Chhindwara-1 Provides Technical Guidance on Water-Efficient Rabi Crops

Chhindwara, 8 October 2026: Dr. R. K. Jhade, In-charge Senior Scientist and Head, Krishi Vigyan Kendra (KVK), Chhindwara-1, served as a resource person during an orientation programme for agricultural officers in Chhindwara and Pandhurna districts. He provided technical guidance on suitable low-water-requirement Rabi crops, improved varieties and recommended cultivation practices. The programme also addressed crop residue management and highlighted strategies for efficient water use and sustainable agriculture.

KVK Scientist Addresses Fruit Growers' Queries on All India Radio

Chhindwara, 8 October 2026: Dr. R. K. Jhade, Scientist in Horticulture and In-charge Senior Scientist and Head, Krishi Vigyan Kendra (KVK), Chhindwara-1, participated in a live phone-in programme broadcast by Prasar Bharati's All India Radio, Chhindwara, at 7:30 a.m. The programme focused on the importance of certified planting material in fruit orchards. Dr. Jhade responded to fruit growers' queries and provided technical guidance on selecting quality planting material for orchard establishment.

Certified Chickpea Seeds Distributed under Dalhan Aatmanirbharata Mission

Simiriya Kala, 9 October 2026: Under the Dalhan Aatmanirbharata Mission, certified chickpea seeds of the RVG-204 variety were distributed to selected farmer at Simiriya Kala village, Mohkhed block, Chhindwara district, for the Rabi season 2026–27. The cluster-wise distribution of critical inputs aims to promote improved pulse production technologies, enhance crop productivity and encourage farmers to use quality seeds.

KVK Scientists Provide Advisory Support during Natural Farming Field Visits

Chhindwara, 9 October 2026: Scientists from Krishi Vigyan Kendra (KVK), Chhindwara-1, visited farmers' fields to assess crop health and inspect natural farming demonstrations. During the visits, they provided technical guidance on identifying major insect pests and crop diseases and recommended appropriate management practices. The interactions aimed to support farmers in adopting natural farming components and improving crop health and productivity.

KVK Tamia Conducts Training on Natural Farming and Kharif Crops

Tamia, 1 October 2026: Krishi Vigyan Kendra (KVK), Tamia, in collaboration with ATMA, organized a training programme on natural farming and Kharif crop management. The programme focused on sustainable agricultural practices and the use of locally available resources. Practical demonstrations on the preparation and application of organic fertilizers familiarized farmers with natural farming techniques and their use in crop production.

Scientists Visit Maize Fields in Richhada Village

Richhada, 6 October 2026: Dr. D. C. Shrivastava, Senior Scientist and Head, KVK Tamia, Dr. Shikha Sharma and officers from the Department of Agriculture visited maize fields in Richhada village, Amarwara Block, to assess crop conditions and identify field-level problems. The team interacted with farmers, examined rop-related issues and provided technical guidance on appropriate crop management practices to improve crop health and productivity.

Scientists Explore Natural Farming and Pineapple Intercropping at KVK Delakhari

Delakhari, 7 October 2026: Dr. R. K. Jhade, Senior Scientist and Head, KVK Chhindwara, and Dr. D. C. Shrivastava, Senior Scientist and Head, KVK Tamia, visited the model natural farming unit at KVK Delakhari. They observed natural farming practices and exchanged technical knowledge on sustainable agriculture.

The scientists also examined pineapple intercropping in a mango orchard, demonstrating the potential of intercropping to improve land-use efficiency, diversify farm production and generate additional income.

Chhindwara Agriculture Officers Oriented on Water-Efficient Rabi Crops

Chhindwara, 8 October 2026: An orientation programme for agricultural officers in Chhindwara district focused on promoting low-water-requirement Rabi crops and improving crop residue management. Shri Morish Nath, Deputy Director, Farmer Welfare and Agriculture Development, Chhindwara, and Shri Dhiraj Thakur, Project Director, ATMA, guided participants on suitable Rabi crops, recommended varieties, scientific cultivation practices and efficient water use. The programme also emphasized sustainable crop residue management to conserve natural resources and support sustainable agricultural development.

JNKVV Foundation Day Celebrated Alongside Swachhata Programme at KVK Damoh

Damoh, 1 October 2026: Krishi Vigyan Kendra (KVK), Damoh, celebrated the Foundation Day of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, in the presence of 54 DAESI diploma trainees, RAWE students and farmers. A Swachhata programme was also organized to promote cleanliness at workplaces and in schools, Gram Panchayats and Anganwadi centres across nearby villages. KVK scientists and RAWE students actively participated in the initiative.

DAESI Trainees Explore Agricultural Demonstration Units at KVK Damoh

Damoh, 1 October 2026: A group of 54 DAESI diploma trainees from Sagar district visited Krishi Vigyan Kendra (KVK), Damoh, to learn about agricultural technologies and demonstration facilities. The trainees explored units related to NADEP and vermicompost -ing, natural farming, medicinal and aromatic crops, Azolla, protected cultivation, drip irrigation, dairy and fodder production, rainwater harvesting, soil testing, beekeeping, goat rearing, fisheries, agroforestry and mushroom production. They also visited the mist chamber, automated weather station and other facilities, interacting with KVK scientists to gain practical knowledge of improved agricultural practices.

KVK Damoh Participates in District-Level Poshan Maah Programme

Damoh, 7 October 2026: Scientists from Krishi Vigyan Kendra (KVK), Damoh, participated in a district-level Poshan Maah programme to promote awareness of nutritious food and household nutrition.

Discussions focused on the importance of a balanced diet and the establishment of nutritional kitchen gardens to improve access to fresh, locally grown vegetables and support family nutrition.

KVK Damoh Conducts Off-Campus Training at Avari Village

Damoh, 10 October 2026: Krishi Vigyan Kendra (KVK), Damoh, organized an off-campus training programme at Avari village in Damoh Block. Dr. R. K. Dwivedi, Scientist, KVK Damoh, interacted with farmers and provided technical guidance on advanced agricultural practices. The programme aimed to strengthen farmers' knowledge of improved technologies and promote more efficient and sustainable farming operations.

KVK Damoh Promotes Improved Farming under Mukhyamantri Jan-Vishwas Abhiyan

Damoh, 9 October 2026: Dr. Manoj Kumar Ahirwar, Senior Scientist and Head, Krishi Vigyan Kendra (KVK), Damoh, visited Gram Panchayat Bandakpur under the Mukhyamantri Jan-Vishwas Abhiyan and interacted with farmers to address their concerns.

A block-level farmers' seminar was also organized at Nagar Parishad Hindoriya, where Dr. Ahirwar shared information on advanced agricultural practices. The activities aimed to strengthen farmer awareness and encourage the adoption of improved farming technologies.

Farmers' Seminar Promotes Advanced Agricultural Practices at Richkudi

Damoh, 11 October 2026: A Krishak Sangoshthi was organized at Richkudi village, Tendukheda Block, Damoh district. Dr. R. K. Dwivedi, Scientist, Krishi Vigyan Kendra (KVK), Damoh, provided farmers with technical information on advanced agricultural practices. The seminar aimed to improve farmers' understanding of scientific cultivation methods and encourage the adoption of improved agricultural technologies.

KVK Dindori Promotes Mushroom Production among Rural Women

Dindori, 30 September–1 October 2026: Krishi Vigyan Kendra (KVK), Dindori, in collaboration with Udyogini, organized a two-day vocational training programme on Mushroom Production Technology Mushroom Production Technology for Community Resource Persons (CRPs) and innovative young farm women.

Dr. Ramesh Amule delivered technical sessions and explained practical aspects of mushroom production. Senior Scientist and Head Dr. K. K. Deshmukh, Dr. P. L. Ambulkar, Dr. Geeta Singh, Mrs. Renu Pathak, Mr. Avdhesh Patel and Ms. Shweta Masram coordinated the training and practical sessions. The programme aimed to enhance participants' technical skills and knowledge of mushroom production.

KVK Dindori Scientists Diagnose Crop Pests and Diseases

During October 2026, scientists from **KVK Dindori** visited farmers' fields of paddy, groundnut, pigeonpea, maize and sesame to assess insect pest and disease incidence. Bacterial leaf blight was observed in paddy, and farmers received scientific plant-protection advice. Dr. K. K. Deshmukh recommended integrated disease management practices, including balanced fertilizer application, avoiding excessive nitrogen use, maintaining proper field drainage and following crop sanitation measures. Farmers were also advised to use suitable disease-management products in accordance with current agricultural recommendations and expert guidance.

School Students Explore Agricultural Education at KVK Dindori

Dindori, 7 October 2026: Students from Saraswati Shishu Mandir School, Dindori, visited Krishi Vigyan Kendra and its crop cafeteria to learn about improved agricultural practices and high-tech horticulture. The visit introduced students to modern agricultural technologies and career opportunities in the agriculture sector. Students expressed interest in pursuing agricultural education, preparing for the Pre-Agriculture Test (PAT) and exploring future employment opportunities in agriculture.

KVK Harda Investigates Soybean Crop Damage

Harda, 1 October 2026: Krishi Vigyan Kendra (KVK), Harda, in collaboration with the Department of Agriculture, visited a farmer's field to investigate reported soybean crop damage potentially associated with street lighting. The team assessed the field conditions and aimed to identify possible factors affecting crop growth, providing technical guidance to the farmer on the basis of its observations.

Biofortified Maize Trial Reaches Maturity at Kolipura

Harda, 2 October 2026: An on-farm trial of biofortified maize variety JM-1014 was conducted at Kolipura village, Harda, with the participation of farm women.

By 2 October, the crop had reached maturity, indicating satisfactory progress of the trial. The initiative aimed to demonstrate the potential of biofortified maize to support household nutrition and improve nutritional security among farming families.

KVK Harda Staff and RAWE Students Take Swachhata Pledge

Harda, 1 October 2026: Krishi Vigyan Kendra (KVK), Harda, organized a Swachhata Pledge programme in which the Head of the KVK administered the pledge to staff members and students participating in the Rural Agricultural Work Experience (RAWE) Programme. Participants reaffirmed their commitment to cleanliness, hygiene and maintaining a healthy environment at the workplace and in the surrounding community.

KVK Harda Reviews Kharif Breeder Seed Production

Harda, 5 October 2026: A monitoring team visited the farm of Krishi Vigyan Kendra (KVK), Harda, to review the Kharif breeder seed production programme. Soybean variety JS 2172 and maize variety JM-218 had been sown under the programme. The visit focused on assessing crop growth and reviewing seed production activities to support quality seed production and adherence to recommended agricultural practices.

KVK Harda Publishes Leaflet on Soybean Preservation and Processing

Harda, 6 October 2026: Krishi Vigyan Kendra (KVK), Harda, prepared an awareness leaflet on soybean preservation and processing to educate farmers and farm women about soybean's nutritional importance, appropriate preservation methods and value-addition opportunities. The initiative aimed to encourage better utilization of soybean, strengthen household nutritional security and promote small-scale processing as a potential source of additional income.

KVK Jabalpur Trains Farmers on Soil Testing and Nutrient Management

Jabalpur, 1 October 2026: Krishi Vigyan Kendra (KVK), Jabalpur, organized a training programme on soil testing and nutrient management for 20 farmers, including farm women. Participants learned about assessing soil fertility, maintaining soil health and applying fertilizers based on soil test results to improve crop productivity and promote sustainable agriculture.

KVK Jabalpur Observes Swachhata Pakhwada

Jabalpur, 2 October 2026: Krishi Vigyan Kendra (KVK), Jabalpur, organized cleanliness and awareness activities under Swachhata Pakhwada, with 73 participants. The programme emphasized workplace cleanliness, hygiene, responsible waste management and collective efforts towards a healthy and sustainable environment.

KVK Jabalpur Promotes Millet Processing for Farmers' Income

Jabalpur, 5 October 2026: Krishi Vigyan Kendra (KVK), Jabalpur, organized a training programme on increasing farmers' income through Shree Anna (millet) processing and Farmer Producer Organizations (FPOs). Twenty-three farmers, including farm women, participated. The programme highlighted value addition, collective marketing and millet-based enterprises as opportunities to strengthen rural livelihoods and generate additional income.

Digital Campaign on Crop Residue Management Reaches Over One Lakh Farmers

Jabalpur: Krishi Vigyan Kendra (KVK), Jabalpur, conducted a digital awareness campaign on crop residue management through the Kisan Sarathi portal and social media platforms, reaching more than 100,000 farmers.

The campaign highlighted the harmful effects of stubble burning and promoted scientific alternatives to reduce air pollution, protect soil health and encourage environmentally responsible farming.

DAESI Training Strengthens Agricultural Input Dealers' Knowledge

Jabalpur, 7 October 2026: The Management Training Institute at Krishi Vigyan Kendra (KVK), Jabalpur, conducted a training session under the Diploma in Agricultural Extension Services for Input Dealers (DAESI) programme. Thirty-two trainees participated in the session, which aims to strengthen input dealers' technical knowledge of agricultural inputs, crop management and improved farming practices so they can provide reliable guidance to farmers.

KVK Jabalpur Provides Forestry Training to Rural Students

JJabalpur, 5 September–9 October 2026: Krishi Vigyan Kendra (KVK), Jabalpur, provided forestry education and training to 16 students from Saraswa, Jatva and Urdua Khurd villages in Panagar Block. The Programme introduced students to forestry practices, tree cultivation and natural resource conservation, highlighting their importance for environmental protection and sustainable rural development.

Swachhata Pakhwada Promotes Cleanliness in KVK and Adopted Villages

Jabalpur, 17 September–2 October 2026: Krishi Vigyan Kendra (KVK), Jabalpur, observed the Government of India-sponsored Swachhata Pakhwada through cleanliness drives and awareness activities on the KVK campus and in adopted villages. The initiative encouraged community participation, responsible waste management and the maintenance of clean and healthy surroundings.

KVK Jabalpur Promotes Natural Farming through Training and Demonstrations

Jabalpur: Krishi Vigyan Kendra (KVK), Jabalpur, organized a training and demonstration programme at Badkhera village in Pipariya Kala to promote natural farming. Farmers received information on preparing and using natural inputs and adopting sustainable crop management practices. The programme aimed to encourage eco-friendly agriculture, reduce cultivation costs and improve soil health.

JNKVV Foundation Day Celebrated with Farmers' Interaction at KVK Katni

Katni, 1 October 2026: Krishi Vigyan Kendra (KVK), Katni, organized a Kisan Sangoshthi to mark the Foundation Day of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur.

A total of 45 farmers participated in the programme and received guidance on crop residue management and crop protection measures for Kharif crops. The interaction aimed to promote improved crop management practices among farmers.

KVK Katni Conducts Swachhata Special Campaign 6.0

Katni: Staff members of Krishi Vigyan Kendra (KVK), Katni, along with government school students and RAWE students, participated in activities under Swachhata Special Campaign 6.0. The activities focused on promoting cleanliness, proper waste management and environmental awareness, encouraging participants to adopt responsible practices in their institutions and communities.

KVK Katni Trains Farmers on Crop Protection and Rabi Varieties

Katni: Krishi Vigyan Kendra (KVK), Katni, organized training programmes for farmers and farm women on crop protection measures for rice and pigeon pea. Participants also received information on improved seeds and suitable varieties for the upcoming Rabi season. The programmes aimed to strengthen farmers' technical knowledge and support informed crop planning.

School Students Explore Agriculture as a Career at KVK Katni

Katni: Students from a government high school visited Krishi Vigyan Kendra (KVK), Katni, to learn about agriculture as a career option. The interaction encouraged students to consider professional opportunities in agriculture and develop an interest in becoming skilled agricultural professionals and rural entrepreneurs.

JNKVV Foundation Day Celebrated at KVK Mandla

Mandla, 1 October 2026: Krishi Vigyan Kendra (KVK), Mandla, celebrated the Foundation Day of Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur. The Senior Scientist and Head highlighted the university's contributions to agricultural education, research, improved crop varieties and farmers' welfare.

The programme emphasized the role of KVKs in promoting innovative agricultural technologies, soil and water conservation, and sustainable farming. RAWE students also participated in a cleanliness campaign on the KVK campus to promote hygiene and environmental awareness.

KVK Mandla Observes Swachh Bharat Diwas on Gandhi Jayanti

Mandla, 2 October 2026: Krishi Vigyan Kendra (KVK), Mandla, observed Swachh Bharat Diwas by organizing a cleanliness drive along the riverbank in Mandla. KVK scientists and RAWE students participated in the campaign, cleaning the riverbank and spreading awareness among local residents about cleanliness, proper waste disposal and environmental protection. The initiative encouraged community participation in maintaining a clean, healthy and sustainable environment.

RAWE Students Gain Practical Experience in Turmeric Cultivation

Mandla, 6 October 2026: RAWE students from Jabalpur received practical training at Krishi Vigyan Kendra (KVK), Mandla, on turmeric cultivation.

The students learned about weeding practices in turmeric fields and identified different turmeric varieties. The hands-on session strengthened their understanding of crop management and varietal characteristics, providing practical exposure to scientific cultivation practices.

KVK Mandla Hosts Workshop on Data Science for Climate Change Adaptation

Mandla, 7 October 2026: Krishi Vigyan Kendra (KVK), Mandla, in collaboration with the United Nations Development Programme (UNDP) and ASHA NGO, organized a one-day workshop on "Localising Data Science for Climate Change Adaptation Projects."

The workshop was conducted under the guidance of Dr. Deepali Bajpai, Senior Scientist and Head, KVK Mandla, and Shri Ashwini Jharia, Deputy Director of Agriculture, Mandla. Representatives from various allied departments participated in discussions on applying data science at the local level to support climate adaptation, evidence-based planning and coordinated efforts towards climate-resilient agriculture and livelihoods.

Farmers Visit KVK Mandla to Learn about Natural Farming

Mandla, 8 October 2026: Farmers from Mohgaon block of Mandla district visited Krishi Vigyan Kendra (KVK), Mandla, under the ATMA programme. The visit provided an opportunity to learn about the KVK's natural farming unit and other demonstration facilities. The exposure visit aimed to familiarize farmers with different agricultural practices and encourage the adoption of improved and sustainable farming methods.

KVK Narsinghpur Promotes Scientific Crop Residue Management

Narsinghpur, 8 October 2026: Krishi Vigyan Kendra (KVK), Narsinghpur, organized awareness programmes at Machamau and Hinotiya villages in Kareli block under the Crop Residue Management Project 2026–27, under the guidance of Dr. Vishal Meshram, Senior Scientist and Head.

Dr. S. R. Sharma, Scientist, explained the use of modern machinery, including Super Seeder and Happy Seeder, for residue management, while Dr. Nidhi Prajapati, Scientist, highlighted the role of bio-decomposers in improving soil health. A total of 115 farmers participated and received guidance on sustainable crop residue management and preventing stubble burning.

KVK Panna Observes Swachhata Hi Seva on Gandhi Jayanti

Panna, 2 October 2026: Krishi Vigyan Kendra (KVK), Panna, organized Swachhata Hi Seva on the occasion of Mahatma Gandhi's birth anniversary. KVK staff and RAWE students cleaned the guava high-density planting demonstration unit and carried out in-situ mulching, promoting cleanliness and sustainable agricultural practices.

KVK Scientist Motivates Agriculture Students during Deeksharambh

Panna, 3 October 2026: Dr. R. K. Jaiswal, Scientist (Plant Protection), KVK Panna, delivered a motivational address to first-year B.Sc. Agriculture students of the College of Agriculture, Panna, during the Deeksharambh induction programme.

He guided them on an exposure visit to KVK demonstration units and discussed the importance and diverse dimensions of agriculture. Faculty members also attended the programme.

KVK Panna Scientists Share Expertise at Makhana Cultivation Seminar

Panna, 5–6 October 2026: Scientists from Krishi Vigyan Kendra (KVK), Panna, participated in a district-level seminar on makhana cultivation organized by the Department of Horticulture and Food Processing. Dr. P. N. Tripathi, Senior Scientist and Head, Dr. R. K. Jaiswal and Dr. R. P. Singh delivered lectures on various aspects of makhana cultivation. Dr. Manoj Kumar of ICAR–National Research Centre for Makhana, Darbhanga, also addressed participants virtually. Chief Guest Shri Umrao Singh Maravi, CEO, Zila Panchayat, Panna, encouraged farmers to adopt makhana farming to enhance their income. Around 180 farmers attended the seminar.

Thirty-Eight Agriculture Students Begin RAWE Programme in Panna Villages

Panna, 8 October 2026: Thirty-eight fourth-year B.Sc. Agriculture students from the College of Agriculture, Panna, were placed in Jaruapur and Kunjwan villages under the Rural Agricultural Work Experience (RAWE) programme, under the guidance of Dr. P. N. Tripathi, Senior Scientist and Head, KVK Panna.

Dr. R. K. Jaiswal, Scientist and RAWE In-charge, briefed students on practical agricultural learning, rural socio-economic conditions, entrepreneurship, skill development and technology transfer. Progressive farmer Shri Subrato Malik shared his experiences in farming and agricultural entrepreneurship.

KVK Tikamgarh Organizes Mushroom Production Training for Rural Livelihoods

Tikamgarh, 6–10 October 2026: Krishi Vigyan Kendra (KVK), Tikamgarh, organized a five-day training programme on mushroom production to promote self-employment, income generation and nutritional security in Bundelkhand. The programme targeted rural youth, farm women, smallholder farmers and students, providing practical knowledge of mushroom production as a potential livelihood opportunity.

KVK Tikamgarh Guides Farmers on Pulse Production under CFLD–NFSM

Tikamgarh, 9 October 2026: A KVK scientist visited villages in Jatara block of Tikamgarh district and interacted with farmers under the CFLD–NFSM programme for 2026–27. The discussions focused on recommended production practices for pulse crops, with the aim of improving crop productivity and encouraging the adoption of scientific cultivation methods.

KVK Tikamgarh Conducts Swachhata Hi Seva Campaign

Tikamgarh, 17 September–31 October 2026: Krishi Vigyan Kendra (KVK), Tikamgarh, is conducting the Swachhata Hi Seva campaign to promote cleanliness, hygiene and collective responsibility towards a healthy society. The initiative emphasizes that cleanliness is a service to society and the nation, encouraging everyone to contribute towards a cleaner and healthier India.

DSW

Blood Donation Camp Collects 40 Donations

On 5 October, the Dean, College of Agriculture, Jabalpur, and the Dean of Student Welfare jointly organized a blood donation camp. A total of 40 volunteers, including NCC and NSS volunteers and university staff members, donated blood as part of the university's community service activities.

Clean Hostel Initiative

As part of the Foundation Day week, the Dean of Student Welfare organized a clean hostel programme on 4 October within the university premises. The initiative encouraged students to maintain cleanliness and hygiene in their residential surroundings.

Cleanliness Drive Promotes a Plastic-Free Campus

The Dean of Student Welfare organized a cleanliness programme on 2 October across university offices and campus premises. Single-use plastic bags were collected for safe disposal, and cloth bags were distributed to encourage participants to adopt environmentally responsible alternatives in their daily lives.

Health Check-up Camp Benefits Students and Staff

A health check-up camp was organized on 6 October for university students and staff. Screening services covered diabetes, high blood pressure, hypothyroidism, eye health and dental health. Participants received medical advice and guidance on disease prevention and management. More than 400 students and staff benefited from the eye check-up camp.

JNKVV Celebrates 63rd Foundation Day Week under "Sewa Sankalp Abhiyan"

Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, celebrated its 63rd Foundation Day week under the theme "Sewa Sankalp Abhiyan" from 1 to 7 October 2026. The week-long celebration featured community service, cleanliness initiatives, health awareness programmes, blood donation and student competitions, reflecting the university's commitment to social responsibility and student welfare.

Nasha Mukti Rally Spreads Awareness

On 3 October, the Dean of Student Welfare and the Dean, College of Agriculture, Jabalpur, jointly organized a Nasha Mukti awareness rally. Students were sensitized to the harmful effects of alcohol consumption, intoxicants and drug abuse. They also took a pledge to refrain from substance abuse, promote healthy lifestyles and spread awareness about its adverse effects on individuals and society.

Nutritious Food Distribution for Tuberculosis Patients

On 1 October, a nutritious food distribution programme was organized under the National Tuberculosis Elimination Program to support tuberculosis patients through community assistance. According to the report, more than 300 patients benefited from the initiative, while over 1,500 people were reported to have been protected from further TB infection.

SUPERANNUATION

Dr. A. K. Rai

Dr. A. K. Rai, Director of Instrumentation, JNKVV, Jabalpur, superannuated on 31 October 2026 after rendering more than four decades of dedicated and distinguished service in Teaching, Research and Extension. Since joining the University on 12 May 1986, he has enriched the institution through his professional excellence, unwavering commitment and invaluable contributions to academic and scientific advancement. The entire University fraternity gratefully acknowledges his exemplary service and extends its heartfelt wishes for a happy, healthy and fulfilling retired life, marked by continued purpose, joy and well-being.

Dr. Anubha Upadhyay: Nearly Four Decades of Excellence in Teaching, Research and Extension

Dr. Anubha Upadhyay has made significant contributions to teaching, research and extension at Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur, over nearly 38 years of service. She joined the university in March 1988 and served as Head of the Department of Food Science and Technology from May to November 2026. She is currently serving as Professor. A graduate of Jabalpur University, Dr. Upadhyay obtained her Master's degree in Food Science from JNKVV, Jabalpur, and completed her doctoral research at Rani Durgavati Vishwavidyalaya (RDVV), Jabalpur. Her academic career includes 12 years of service as Assistant Professor and nine years as Associate Professor.

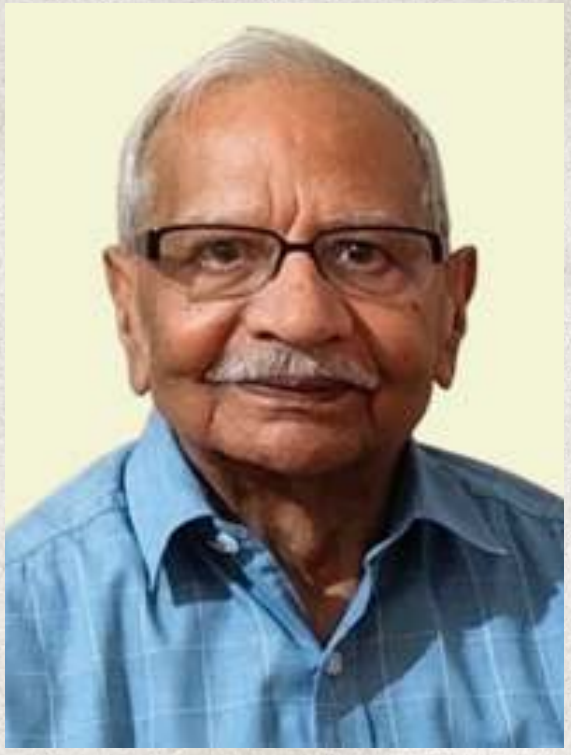

Her areas of specialisation include food processing, value addition, herbal medicine research, analytical testing methods and pesticide residue analysis. She has contributed to the development of 52 value-added products incorporating medicinal herbs and developed methods for extracting active ingredients from commercially cultivated medicinal plants.

Dr. Upadhyay has successfully handled six nationally funded research projects, including a project funded by BARC, Mumbai, for which her work received special appreciation. Under her research guidance, four Ph.D. and 20 M.Sc. scholars have completed their research. She has also published more than 70 research papers in reputed national and international journals. Her academic and research contributions have been recognised through several national and international awards.

Beyond her professional achievements, Dr. Upadhyay is appreciated for her intellectual acumen, supportive nature and thoughtful approach. Her long-standing contribution to teaching, research and student guidance reflects her dedication to academic excellence and the development of food science and technology.

Dr. Arvind Mishra Remembered for His Scientific Contributions and Collegial Approach

Dr. Arvind Mishra served as Head of the Department of Food Science and Technology and contributed as a Scientist at the Crop Quality Laboratory, Jawaharlal Nehru Krishi Vishwa Vidyalaya (JNKVV), Jabalpur. During his tenure, the department successfully completed several significant research projects, reflecting his commitment to academic and scientific excellence.

Dr. Mishra was respected for his extensive technical knowledge, gentle demeanour and thoughtful communication. His ability to present and substantiate his views with clarity and sound reasoning earned him the regard of his colleagues. His friendly, supportive and approachable nature made him a valued member of the university community and an inspiring presence in the department.
